Drunk and Robbed

J A Forester who arrived in this city yesterday morning on the steamer *State of California* from Portland incautiously took too much whisky at an establishment not far from the steamer's wharf. So long and deep were his draughts of firewater that he was taken to the city prison on a charge of drunkenness. After having cooled off his heated brain Forrester reported that he had left in an old stocking under his mattress on the steamer $140 and upon obtaining release from custody he went to the steamer and failing to find it there concluded that he must have taken it with him and had been robbed after getting ashore

The Arctic Ice Fields

SAN FRANCISCO, Nov 28—The whaling bark *Helen Mar* arrived from the Arctic ocean last night. She brings the officers and crew of the bark *Mercury* abandoned in the ice October 24th in latitude 71 10 north longitude 172 west just north of Herald shoals. They left the bark *Vigilant* in the same pack of ice frozen in but the crew were all well. Capt Hickmott of the *Mercury* like other whalemen fear that the *Jeanette* may be frozen up in the pack of ice in which case they have little hopes of the vessel ever getting out, though the crew may reach a place of safety. The *Mercury* had on board, when abandoned 1000 barrels of oil 9000 pounds of bone and 3000 pounds of ivory. The vessel was owned by Bartlett & Son of New Bedford and insured for about $10 000 her policy having been made out for four years and had one year to run

Shooting Affray at Colusa.

COLUSA Nov 28—A shooting affray occurred at the Dexter saloon at 8 o'clock last evening between Wm Ogden and John Gill, in which Gill received three shots in the breast and one in the ankle. Ogden was shot between the pit of the stomach and the navel and also in the thigh. They had been good friends but had some words about a game. Each emptied his pistol but neither man fell and both walked out of the saloon. Both are in a critical condition

WALLA WALLA Nov 27—On the 26th as the stage running between Dayton and Lewiston was nearing the Alpawai a road agent demanded Wells Fargo & Co's treasure box. It was given to him but there was nothing in it, as it was an up country stage. Mrs Duniway and two Chinese, the only passengers, were not disturbed

Reduction of the Puget Sound Lumber Product.

SEATTLE, Nov 28—By reason of a combination recently formed at San Francisco through the Pine Lumber Manufacturing Association looking to a reduction of the lumber product, all of the mills on the Sound will commence running on two-thirds time on Monday next, excepting the Milton mill and probably one or two others subsidized to close down entirely for an indefinite length of time. It is asserted that the mill companies have been manufacturing lumber at an actual loss for the past year, and that the combination in question was formed a year ago, but not put into effect on account of the new constitution agitation in California. The combination has advanced the price of rough lumber in San Francisco from $10 to $14 per thousand on the cargo, and on other kinds in proportion

Shipments from Puget Sound.

SEATTLE, Nov 28—The P M S S Co's steamship *City of Chester* which sailed hence for San Francisco this morning at 6 o'clock took the following list of freight from several Sound ports: 26 sacks of clams, 32 cheese, 17 090 sacks of oats, 72 sacks timothy seed, 56 sacks potatoes, 185 green hides, 7 bales calf skins, 1 bale deer skins, 30 dry hides.

A NEW SOUTHERN RAILROAD

THE ATCHISON, TOPEKA AND SANTA FE ROAD UNDER THE NAME OF THE "ATLANTIC AND PACIFIC," TO BE PUSHED THROUGH IMMEDIATELY

[From the New York Sun, Nov 21]

The recent rise in the shares of the St Louis and San Francisco Railway Company and their firmness during the prevailing depression of the market have now been ascertained to result from a combination of the company with the Atchison, Topeka and Santa Fe Railroad Company, for the purpose of extending the St Louis and San Francisco road under the name of the Atlantic and Pacific to San Francisco with a branch to the town of San Diego. The agreement for this purpose has been ratified by the board of directors of both companies and duly signed and delivered. The equipment of locomotives cars and steel rails for the first 200 miles of line have already been bought and construction will commence immediately. The Atchison, Topeka and Santa Fe Company has its grading finished to the Rio Grande now and the rails will be laid by the 1st of December. The new road commences at the Rio Grande and will all be pushed directly to the Pacific ocean. No delay will occur, the money having all been raised and the surveys completed. The witnesses who were called for the territory were the women, young girls and children who were present and saw the killing, who were spared from death many of them for a worse fate. There was not a particle of doubt as to the guilt of four of the accused in the mind of any one at the trial either among the jurymen or spectators but there was some doubt as to the guilt of one of them as the evidence that he did any killing was not conclusive but ... was present ... and armed ... the time and according to the instructions of the judge the one ... juror was obliged to render a verdict of guilty against him as well. ... case adjourned at ... the request of the defense and every ... requisite to give them a fair impartial trial was done. He says "and the intelligent jury" ... with the spectators of that scene are either dead and damned or they are sunk in the horrid oblivion of those who are born without souls. All we have to say is that in our present impecunious and humble position we should like to have a little of their damnation. Some of the jurymen are dead, but they still live in the minds of their descendants and friends as men whom to know was to honor and who were able to leave their ... surrounded with broad acres and the ... One juryman was probably a stranger as no one remembers him but the remainder living are some of our most prominent citizens, well blessed in the world's goods, happy in the possession of children, some of whom have been elected to prominent official positions and any of them without exception would ornament any community in the country. Oregon City at the time of the trial was the capital of the territory, always has been well governed and to this day has some municipal laws that are far in advance of larger cities. One watchman is sufficient protection to life and property no minors are seen on our streets after 9 o'clock P M and we are happy in living in an atmosphere that is healthy both morally and physically.

The above facts are taken from the territorial records, from Mrs Victor's "River of the West," the only reliable work on the early history of Oregon—and from interviews with many gentlemen who were present at the trial in Oregon City

SATURDAY MORNING, NOV. 29, 1879.

SOME PLAIN WORDS.

Under cover of a communication from Salem an organ which owes its existence to enforced contributions from office holders, to political pap and to ring favors and grabs of various kinds, makes an entirely unprovoked and blackguardly attack on H. W. Scott member of the national republican committee for Oregon, because he purposes to attend the meeting of that committee, pursuant to call. It is best perhaps to suppose that the attack is the inspiration of some underscrapper who imagines that this is the way to ingratiate himself with certain supposed high mightinesses of Oregon politics, and who has not sense enough to see that the best thing that can be done by those who desire any future success for the republican party in this state is not to insist further on making fidelity and servility to a particular interest or clique the absolute test of standing in the party. We shall speak with great plainness about this matter. No contest is courted on the basis of past differences and divisions in the republican party, in this state; but those who have protested heretofore propose to submit to no kind of arrogance or abuse from those with whom they have differed and whom they have found it necessary, for reasons amply sufficient, to oppose. It is not best to attempt to revive the old dictatorship over the republican party of Oregon, nor to make an endeavor to establish any new one. It should be possible for the republicans of the state to co operate for the general objects of the party on a basis of mutual forbearance and harmony. But if there are those who will not have it so they may assure themselves right now that hostility and insult will be resented and resented to some purpose. If there are any who think they have political objects to gain through revival of old differences, or who think their way to success lies through an arrogant, dictatorial and proscriptive course, they will find, as heretofore, that they have ventured on a most foolish and suicidal enterprise. What this kind of politics has resulted in may be seen in the recent election in New York, and in a solid democratic delegation from Oregon. Are there those to whom no lesson can be sufficient? Underlings, perhaps, may wish to gratify their spleen without thinking of consequences, or may have a notion that the way to the favor of principals is through attacks on those who have been prominent in opposition; but principals would do well to take note of these things and bring their subordinates under needful regulation. These dissensions and contentions are neither agreeable nor profitable. There are republicans enough in this state for one party, but not enough for two. No clique, ring or faction has a right to set up its lordly rule over a party and proscribe all who will not bow with humility before it. Let it be understood, therefore, that those who have resisted an arrogant despotism of this description heretofore, both here and elsewhere, have courage and conscience and self-respect to do it again when needful to assert their rights and proclaim the doctrine of honorable methods in politics. No one connected with THE OREGONIAN asks office, or solicits any favor which party has to bestow. But THE OREGONIAN does think it essential that the republican party should triumph in the coming presidential election. At the same time it knows that success on that occasion, as well as success in future local contests, can be gained only by co-operation, goodwill, fair dealing and honorable methods. If the contest is to be a mere struggle for place, if one person regards another as his enemy because he thinks that person somehow in his way, if envy shows itself on every occasion and then curdles into hate, as it is sure to do, matters will be again at a pass where the triumph of the party will be impossible because its triumph would be only the triumph of a faction, seeking its own ends. THE OREGONIAN will reopen no quarrel and claim no dictatorship. On the other hand it will submit to no indignities, and it speaks for many more of equal spirit. It seeks peace but if it is forced by an aggressive and selfish insolence to a contest it would avoid, it will be found that it has not forgotten how to smite with weapons at least equal to those of any assailant.

STATISTICS OF NATIONAL PROGRESS.

"A Comparative View of American Progress" is presented in an excellent article in the *Princeton Review* by Robert P. Porter of Chicago, who is becoming known as one of the most intelligent statisticians in the country. In this article he has brought together a mass of facts and statistics illustrative of the progress of different sections of the United States in manufactures, trade, the production of minerals, including the precious metals, agriculture and population, and of their wealth-producing capabilities. The article opens with a striking exhibit of the tendency of population in England to accumulate in the cities or manufacturing centers, while remaining almost stationary or retrograding in the agricultural districts. This overgrowth of the cities, with a corresponding overproduction of the staples of manufacturing industry, is noted as a prime cause of the present depression of English manufactures. But emigration has had much to do with the depletion of the agricultural districts of Great Britain. The letter from the agent of the Inman steamship line, published in THE OREGONIAN two or three days since, spoke of the desire of English tenant farmers to remove to America and their inquiries about Oregon; and this is but an incident of a movement which has been in progress for many years. In the 62 years from 1815 to 1876 the number of emigrants who left the United Kingdom was 8,424,942. Of these, 5,467,075 were destined to the United States; 1,549,010 to British North America, and the remainder to Australia and elsewhere. Every observer has noted the rapid accumulation of our own population in the cities; but the tendency in this direction has been far more considerable in the British islands than in the United States.

Passing from this introductory statement the writer presents an array of most valuable statistics to show the rapidity with which certain lines of manufacturing industry are extending toward the west and south. Only so long ago as prior to the war the eastern states alone manufactured textile fabrics. Since then cotton mills have sprung up all over the south. Tennessee has 40 cotton mills. There are many in Georgia, Alabama, Mississippi, South Carolina and Virginia. For the year ending September 1, 1879, the south had manufactured 152,000 bales—against 1,410,000 in the north. The iron business is making progress in several so called western states, as Illinois, Indiana and Michigan. Chicago is becoming an iron city, and one-seventh of all the [illegible] iron in the United States is now [illegible] the west." A few years ago all [illegible] came from Boston. Now [illegible] western markets is bought east of Michigan and Indiana. But though the manufacturing industries of the west are growing, those of the east are [illegible]. Increase of cotton manufacture in the eastern states in the past four years has been 350,000 bales, against an increase of 7,000 bales in the south in the same period. Increase in the consumption of the raw material of cotton manufactures has been much greater in the United States than in England. The American cotton fabrics have not only completely supplanted the English in [illegible] markets, but are successfully [illegible]

and this without any decrease of wages to the American workmen, which are ten per cent higher than in 1860.

Mr. Porter estimates the number engaged in manufactures in each section of our country as follows:

The east	[illegible]
The west	[illegible]
The south	[illegible]

The rapid strides with which the western—or to speak more strictly the middle states—are advancing in industrial development, is vividly illustrated by these figures. In many particulars the tariff laws have been and continue to be a burden on this progress, especially in newer parts of the country like our own. But there is a richness of resources in the country and a reserve of energy among the people which tend to progressive development in spite of all obstacles. Yet with judicious adjustment of the tariff there would be still better results for general industry, including agriculture, the greatest industry of all.

The report of the chief of the dead letter office shows that there were received during the last fiscal year an aggregate of 2,[illegible] dead letters, a decrease of 100,292 from the number received during the previous year. This decrease is believed to be owing to the general use of envelopes on which requests to "return if not called for," etc., are printed. The extent to which these "request envelopes" are used was ascertained by a test made in May last. In a single day there were mailed at the post-offices in Boston, New York, Philadelphia and Baltimore, 354,696 letters, of which number 193,879 bore the request to return in ten days if not called for. Of the letters received at the dead letter office during the year many thousands contained money, checks and postage stamps, representing an aggregate value in excess of one million dollars. Of more than five million registered letters only 2193 found their way to the dead letter office, and all of these except 211 finally found their way to the owners.

The proposition to send Mr. Jefferson Davis to the national senate in place of Mr. Bruce (whose term will expire in 1881) is renewed by conspicuous southern journals. The objection that he was the head of the southern rebellion, and is the still living symbol of the pestilent political idea on which the rebellion was organized and precipitated, "lacks force," says the Memphis *Avalanche*. For, as the head of the rebellion, "he was a true representative of the south," and as the foremost embodiment of the principle of the rebellion "he is the true representative of the dominant party in the south now." Is it upon the supposition that his election to the senate would recommend that party to the confidence of the country that the Memphis paper renews this proposition? Or is it intended as an answer to the question put by other southern journals, "What shall the democratic party do now?"

In view of the probable renomination of Senator Bayard for the presidency there has already been an overhauling of his public utterances during the rebellion, and the result shows that he was a first-class state supremacy man, and of course an ardent sympathizer with and defender of secession. It is a record which will make pretty reading should he be nominated. After the recent attempts in congress to rehabilitate the doctrines of the state sovereignty rebellion, and the verdict of the public thereon, it will hardly be safe to nominate for the presidency a man whose political creed is nothing if not a distinct embodiment of the confederate idea.

From dispatches recently received it would appear that the new Cuban insurrection was becoming a serious affair. The insurgents are mustering by thousands, and carrying on the war in their peculiar fashion of pillage and burning, while the Spanish authorities are at their wits' ends and look anxiously for reinforcements from Europe. It would be interesting to know whether the revolt has any other motive than pillage. It has been understood that Spain was introducing the reforms demanded with all convenient speed.

A Chicago telegram to the Milwaukee *Sentinel* says that during the stay of Grant in Chicago, large numbers of politicians from many states were in that city, taking observations of the situation, most of whom expressed their conviction that the effort to make a third term boom was an apparent and even conspicuous failure.

The pension rolls contain the names of 1621 soldiers of the war of 1812, and 21,191 widows of deceased soldiers of that war.

Quong jointly indicted with Ah Lee for said crime, [illegible] was found guilty by the jury of murder in the second degree only, and that the commutation of Ah Lee's sentence is about to be applied for, though the evidence tends to show that the murder of Chun [illegible] Ying by Charley L. THANKSGIVING DAY.

ITS OBSERVANCE IN THIS CITY—[illegible] THE SERMONS DELIVERED

Thanksgiving was generally observed [illegible] this city [illegible] [illegible]. Business was [illegible] suspended [illegible] the banks [illegible] houses and most of [illegible] [illegible] St Stephen's [illegible] Trinity [illegible] [illegible] New Market [illegible]

[illegible] SERMON THIS [illegible]

[illegible] Bishop [illegible] St Stephens [illegible]

[illegible] who [illegible] a fine sermon [illegible] the [illegible] [illegible] chorus and of a truly [illegible] character. The altar [illegible] chancel were [illegible] fruits, grains, vegetables and [illegible] flowers with which God [illegible] [illegible] crowned the year.

Bishop Morris preached the sermon from the following text in Deut. xvi [illegible] "Thou shalt observe the feast of tabernacles seven days after that thou hast gathered in thy corn and thy wine: and thou shalt rejoice in thy feast, thou and thy son and thy daughter and thy man servant and thy maid servant and the Levite, the stranger and the fatherless and the widow that are within thy gates. Seven days shalt thou keep a solemn feast unto the Lord thy God in the place which the Lord shall choose: because the Lord thy God shall bless thee in all thine increase, and in all the works of thine hands, therefore thou shalt surely rejoice"

The preacher said: It has become a common [illegible] that the Thanksgiving festival now so [illegible] observed in this country was entirely of New England origin and it is claimed by some that it is peculiarly an American institution. While it is doubtless true that such a day was earlier and more generally observed in New England than in any other portions of this country, it will however be found in a far more primitive age, having even from sacred antiquity the authority. The Harvest House of *Old* England was a festival very similar in its purpose and character to the later Thanksgiving Day of New England. And yet this observance did not originate with our English forefathers but goes back to that still more ancient and peculiar people who have been the most illustrious of man's benefactors. In their memorable feast of tabernacles we shall find the original of our own harvest homes and thanksgiving days. It is held by good authority that in its agricultural significance the feast of tabernacles was of patriarchal origin and that the historical association of dwelling in tents was subsequently engrafted on to its primitive meaning by Moses. With all its strictness the Jewish religion was nevertheless a festive and joyous religion. It made large provision for that principle of man's nature which seeks indulgence in innocent enjoyments. It scattered festive seasons throughout the whole year and gave a glad and joyous aspect to the service of the Lord and the duties of life. With his provision for the outward manifestation of these feelings, they are none the less characteristic of the Christian system which in its advance from the letter to the spirit has only ascended to a higher level when we are called upon for deeper gratitude and heartier thanksgiving.

After speaking in detail of some of the subjects for thankfulness peculiar to the history of the past year the Bishop said in conclusion but let not our thanksgiving end with these services and the festivities of this day. The cheapest and the most useless of all offerings to God is a "service of the lips" only. Pious commonplace sentiments in newspapers, secular or religious and in common talk about his goodness of God and our dependence upon His bounty that end here are empty ness itself. They neither impose on God nor man. They proclaim their own unreality and hollowness to every hearer. If the sentiment of gratitude be in our hearts it must produce real fruits. And these fruits are nothing short of a devout life a life of duty to God and beneficence to man. The services of this day are properly connected with that which will test the reality of our thankfulness—the sharing of our gifts with the sick and suffering. Let this be done abundantly and with a free and willing spirit. Better that God withhold his bounties from us and give us poverty and want than that we rest content with the accumulation of earthly goods simply for own use and indulgence. There is no poverty so dreadful as that poverty of spirit, which with abundance for itself has nothing for the needs or the sufferings of others.

There is no man or earth whose condition is more pitiable than he who with overflowing wealth and lavish indulgence of all his own appetites and tastes, shuts out and stifles every feeling of sympathy or generosity toward those upon whom God's providence has brought want or suffering. It is of such that the Spirit saith "Thou sayest I am rich and increased with goods and have need of nothing and knowest not that thou art wretched and miserable and poor, and blind and naked."

The offering at this service was for the Good Samaritan hospital and amounted to something over $50

SERMON BY REV T L ELIOT AT THE UNITARIAN CHURCH.

Among the causes which should make this nation thankful to-day, I shall pass by the usual named blessings of material prosperity and peace, and call your attention to what seems to me a more living cause of gratitude namely, that we have at last as a people, consented to go to school and learn something—a determination brought about by the series of events beginning with the shot at Sumter and slowly working downwards until the old rational optimism has become thoroughly disclosed and the traditional Fourth of July self laudation has given place partly to forebodings and partly to a sincere desire for just self measurement.

The civil war of 1860 1861 in spite of Cassandra voices that [illegible] it, fell like a thunder clap of surprise and effected what perhaps nothing short of war could have effected—it dashed the dream by which the average American conceived of his institutions as infallible. The nation was entered in the condition that banks often are whose directors have such confidence in the cashier that they never know anything about what he has done is doing or is going to do. We had such a blind and mystical faith in what we call our institutions, and in the machinery of state as constructed and wound up by the revolutionary fathers, that we paid them the tribute of complete political ignorance. Where these institutions really came from what they were doing and whither they were carrying us was scarcely given a sober passing thought by even the watchmen upon the towers of state. With the war began a process of disenchantment since when we have been unduly shaken from one refuge after another of hitherto invincible ignorances, and have begun to learn that America is not exempt from the laws of history, that the constitution did not fall from heaven, and that the crew with which our ship of state is manned have been too often ill assorted freshwater sailors who mistook their vocation who could navigate well enough with a following breeze but went on the sick list at the first head wind. We used to talk of the wisdom of the sovereign people. That wisdom, prior to 1860 was foolish self worship. We worked at nation making like children at their sand forts on the sea side. We kept a kind of summer house, judging that other nations had to live the year round, and find out what winter is—out that there was magic in the name American to stay the order of seasons. And I call it a cause of gratitude that frost has ed long enough to break up the national conceit and imbecile optimism.

The war has done a better thing even than assert national life against the heresies of states right. It has loosened the soil about the roots of that national life so that henceforth it may make roots laterally and downward and not run to top. The time had come through the upheaval of civil strife through the dislocation of finance the sufferings of the laboring classes and the disease of socialism when every thoughtful citizen who loves his country looked at the toys and girls now passing through the streets and wondered what kind of an American would enter into and pass out of their hands a time when we exchanged the parade strut for the sentinel guard. I call this experience with the earnest questions it evoked a blessing for which to be grateful to Providence. It will do us no harm to listen even to croakers if they awaken vigilance and self knowledge. The only fear is that the scare has not gone deep enough. We should have brought up one generation of voters upon it. It should have continued long enough to nip the last village orator who calls America the final experiment of Time. It should linger until our young men learn that government is the profoundest of human sciences that no government can rise higher than the average intelligence and conscience of the people and that the experience of every era of national history is a school of hard pit into our hands. It should continue with just frost enough in the air to warn us against trying to live the year round in summer houses, or navigate the high seas in flat boats or trust the ship of state in other than able seamen's hands.

If we are right but carrying the spirit of humility a blessing will when possessed in a right degree by an individual the cultivation of such a virtue until it becomes a national trait is certainly desirable by whatever process attained. National hardships for the past twenty years have increased largely the class of citizens who are disposed to examine the tendencies of civilization and discriminate the good from the bad. It is no longer regarded unpatriotic to contrast our institutions with those of other nations not ceal y England out of which they sprung for the purpose of correcting as well as flattering our own standards. It is felt that human nature has been a constant factor in history—the stuff out of which all nature we possess, so hat the experience of every nation however distant in [illegible] [illegible] [illegible] [illegible] the American [illegible] [illegible] [illegible]

THE ELLISON BATTALION BALL.

A [illegible] AFFAIR [illegible]—PRESENTATION OF A BANNER [illegible] REMARKS

The [illegible] anniversary ball of Ellison Battalion No [illegible] was given at [illegible] Hall Thursday [illegible] which [illegible] Martha [illegible] [illegible] Charles [illegible]

[illegible]

Commander Marshall accepted the banner in the following neat speech

Fair [illegible]: I thank you all through the committee of arrangements for this beautiful banner and [illegible] to you the [illegible] as a member [illegible] the right arm to wield the one shall be used for the purpose of promulgating the principles of our beloved order and the other shall be stretched forth to succor the distressed. And now ladies and gentlemen I desire to say a few words to you by way of explanation. While the banner may seem nothing more to you than a fine piece of workmanship to the members of the Encampment branch of our Order it is of peculiar interest—its colors have a deep significance and the emblems wrought upon its face speak to us in unmistakable language. The three links are emblematic of the indissoluble chain of faith hope and charity which binds us together as a fraternity. The tent teaches us that hospitality is a sacred duty that we owe to those in our midst and the all seeing Eye reminds us that we are under the constant care and guidance of our ever living and covenant keeping Father whose watchful eye is ever upon us. And now Patriarch [illegible] as standard bearer to this battalion you become the custodian of this banner. I place it in the keeping of you and your guards knowing full well that you will preserve it well from tarnish

After this speech the drill was concluded and dancing commenced and was kept up to the merry music of the Northwest Band until early yesterday morning

WM. SCHEFFLER'S ST. HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD EDGE HILL WINES

Mr Scheffler is sole proprietor of the principle known as the vacuum process of distilling, by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which does and must exist in all alcoholic liquors distilled by the usual process of boiling heat. *California Physicians* have pronounced their preference of it to all other. Doctor Cox government revenue officer at Cincinnati, Ohio says in his report, that after ten years of close investigation he can safely say that very few if any, pure wines or brandy are exported from the Old Continent to this. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of [illegible] and other dangerous drugs in all their French wines that there is great danger of losing the trade of the Argentine States. Other proofs could be cited were it necessary to prove the superiority of the best class of California wines and brandy. Orders from responsible parties addressed to Wm Scheffler or Geo H Beach, St. Helens, Napa county, Cal will receive prompt attention

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia, when a single bottle of DR. MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, smarting, inflammation, calculi, brick-dust deposit, or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM, the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 25. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a *quack nostrum*, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

Quinine and Arsenic

Form the basis of many of the Ague remedies in the market, and are the last resort of physicians and people who know no better medicine to employ for this distressing complaint. The effects of either of these drugs are destructive to the system, producing headache, intestinal disorders, vertigo, dizziness, ringing in the ears, and depression of the constitutional health. AYER'S AGUE CURE is a vegetable discovery, containing neither quinine, arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is a superior remedy for Liver Complaints. It is an excellent tonic and preventive as well as cure of all complaints peculiar to malarious, marshy and miasmatic districts. By direct action on the Liver and biliary apparatus, it stimulates the system to a vigorous, healthy condition. For sale by all dealers. Hodge, Davis & Co., wholesale agents, Portland.

White's Prairie Flower.

Taken before retiring, will insure a good night's rest, with an awakening in the rosy morn to health, courage and vigor. For coated tongue, bad breath, sick headache or any disturbance arising from dyspepsia or torpid liver, it is without a peer. Its action on disease is entirely different from any medicine ever introduced, quieting pains almost instantly. The hue and cry raised against it by patent medicine men, who have foreseen in its advent the destruction of their nefarious business, and the thousands of unsolicited testimonials flowing in from all parts of the New World is a sure indication of its great merits. Trial size at all Drug Stores. Half pound bottles 75 cents.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.*

FINANCE AND COMMERCE.

Financial.

FRIDAY EVENING, November 28, 1879.

The wheat market appears to be still tending in an upward direction, and buyers are willing to quote 2@3c per cental higher than on the first days of the week. There may have been transactions at over $2, but terms have been kept quiet, and the range of the market is given at $1 97@2 2. Receipts are large, there being more anxiety to secure immediate delivery on account of the fear of an ice blockade, which, from latest reports, appears to be well founded, as far as the upper Columbia is concerned.

MARK LANE REPORT.

LONDON, Nov. 25.—The *Mark Lane Express* review of the British grain trade for the past week says: Fortunately wheat sowing made fair progress before frost set in, and will proceed much faster if the weather ameliorates. However in some districts it is feared that future prospects are jeopardized by lack of seed wheat, really good samples of which are exceedingly scarce.

Operations in Scotland are more backward, but if the weather remains propitious another fortnight a fair area will be sown. Harvest is now completed in the later districts of Scotland, but results are unsatisfactory.

In England the home crop of wheat is arriving more freely at country markets, but its condition continues unsatisfactory. Provincial trade has been dull. Wheat declined a shilling per quarter in many important centers. In London the imports were from Russia and these may yet be prolonged if the weather continues mild, as no definite news of the closing of Baltic ports has been received. The future course of prices however depends upon the action of America alone. The gigantic visible supply fetters trade of course. The large imports now arriving are considerably in excess of present requirements, but notwithstanding surface fluctuations the outlook for holders is decidedly hopeful. The stoppage of Russian supplies may, very probably turn the scale in sellers' favor. Very little business was done during the past week in wheat. A ship was pressed for sale to avoid landing expenses, and declined about a shilling. Arrivals at ports of call have been moderate. There was a fair demand for wheat off coast, and a good many cargoes were sold both for the continent and United Kingdom at improving prices, the decline of the early part of the week being fully recovered. Maize was slightly lower, but the demand was somewhat improving. There was very little business done in forward wheat owing to high prices asked in America. Resellers offered very sparingly, but there have been some sales of red winter on passage at 53s 6d@53s 9d, and at 55s for December and January shipment.

Sales of English wheat last week were 40,066 quarters, at 47s 10d per quarter, against 49,580 quarters at 41s 2d per quarter during the same week of last year.

The imports into the United Kingdom during the week ending the 15th inst. were 2,110,934 cwts of wheat, and 33,035 cwts flour.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern States, for the past four months. The Doctor while absent visited all the principal Medical institutions in the large cities of the United States, and comes back with all the modern methods, instruments and appliances known to the most scientific men in the profession. The Doctor has also brought charts and manikins to illustrate his lecture.

DR. PAUL M. BRENAN has been fifteen years lecturing on the Laws of Life and Health. In his private and public lectures he has taught men and women the true system of life, how to be healthy and happy, if they would only be guided by his wise counsel. But all cannot hear his delightful and instructive lectures, nor can he tell everything necessary for suffering humanity to know from the public rostrum before a promiscuous audience. There remains much to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be gleaned by private Professional consultation at his office.

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to, their mode of treatment and permanent cure, as no other physician on the Pacific Coast can claim. He has not only treated these diseases most successfully, but has made them a life study, as a few moments' consultation will prove.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

IT IS TRUE

That persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Those who call in time upon DR. PAUL M. BRENAN need have no fear but what he will restore them to perfect health and vigor, make their body pure and their mind content, if they will only follow his advice and treatment.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail. No Quack Nostrums used; no slop treatment; no false promises.

Everything strictly confidential under all circumstances.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. All fine Surgical Operations performed.

Office—No. 63 First street, between Oak and Pine. Office Hours—From 10 to 12 A. M., 2 to 5 and 7 to 8 P. M.
